“ To the Family: I'm so sorry for your lost. I lost contact with Hazel after retiring. She and I worked together in the school system at The Wilcoe Education Center. She was so proud of you, Rick and Susan. I entered right out of collage as the County's only Speech/Language Pathologist. Hazel took me under her wing teaching me so much about the County and schools. This included traveling, situations I might encounter, services and interacting with parents teachers and other school personnel. She also taught me about making home visits. And on a light note, how to visit this one family on the opposite end of the County who had a goose that always chased people out of the yard before being able to knock on the door. As we were both traveling service personnel, we shared many of the same situations. Hazel called me "Katie" and I loved her pet name for me as we went from being not just co-workers but friends. She had a calming, gentle way about her. I never saw her get upset or lose her patience. She organized a baby shower for me at work also. She will be missed and always fondly remembered.
