“ I also worked with patty at Berwind and at Southside schools. She was supportive of students , encouraging them to do more than they thought they could. She was supportive of other teachers. She will be missed.

“ I have so many memories of Patricia that it's hard to pick just one. She and I worked together several years at Berwind School. We had a circle of close friends. We all laughed together,cried together and complained together. Patty was always so supportive and kept us laughing. I am sad to say that we lost touch when I went to another county to work. I will always miss her.
